You know you are on the “Referring” tab when the tab is highlighted. The information on the screen should be the same as what you see here.

# Referring Hospital Screen– Transported to Referring Facility By

The screenshot shows the 'Referring Hospital' screen in the Indiana Patient Registry. The left sidebar contains navigation links: My Facility, Patient Discovery, Incident History, Facility Setup, Registry Users, Patient Care Staff, and Inbox (0 Unread). The main content area is titled 'Referring Hospital' and includes a red circle highlighting the 'Transported to referring facility by' dropdown menu, which is currently set to 'Not Applicable'. Below this, there are various input fields for patient information, including Glasgow Eye, Glasgow Verbal, Glasgow Motor, GCS Qualifier, Hospital ICU, Hospital OR, CPR Performed, CT Head, CT Cervical, CT Abd/Pelvis, CT Chest, Abdominal Ultrasound, Aortogram, Arteriogram, Airway Management, Destination Determination, and Medications. The bottom of the screen features 'Submit' and 'Reset' buttons.

It is highly recommended to set up several Favorite Referring Hospitals to quickly fill in the Referring Hospital Name. If you already have hospital names set up, you can click on the drop-down menu to select the state in which the Referring Hospital is located.

# Referring Hospital Screen – Referring Hospital Name (2)

The screenshot shows the 'Referring Hospital' screen in the Indiana Patient Registry. The interface includes a top navigation bar with 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located at the top right. The left sidebar contains links to 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into sections for 'Incident Information', 'Referring Hospital', and 'Patient Information'. The 'Referring Hospital' section is highlighted with a red circle, showing a drop-down menu with the text '-- Please Select Facility Name --'. Below this, there are fields for 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. The 'Patient Information' section includes fields for 'Glasgow Verbal', 'Glasgow Motor', 'GCS Qualifier', 'Hospital ICU', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'CT Abd/Pelvis', 'CT Chest', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', 'Destination Determination', 'Temperature', 'Sys. BP', 'Dia. BP', 'Pulse Rate', 'Resp. Rate', 'SpO2', and 'Medications'. The 'Add Referring Hospital' button is located at the bottom of the 'Referring Hospital' section. The 'Submit' and 'Reset' buttons are at the bottom of the page.

The “Glasgow Verbal” element is the first recorded Glasgow Coma Score for verbal at the referring hospital. This value is used to calculate the overall GCS score for the Referring Hospital. Select an option from the drop-down menu.

# Referring Hospital Screen – Glasgow Motor

The screenshot displays the 'Referring Hospital' screen in the Indiana Patient Registry. The interface includes a top navigation bar with 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located at the top right. The left sidebar contains links for 'Image Trend Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into several sections: 'Incident Information', 'Trauma Registry #', 'Patient', 'Medical Record #', 'Import Status', 'Validity Information', and a large form for 'Referring Hospital' data. The 'Referring Hospital' form includes fields for 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. It also features a 'Glasgow Motor' dropdown menu, which is highlighted with a red circle. The dropdown menu shows the option 'Patient's Age is over 2 yrs.' selected. Other fields in the form include 'Glasgow Eye', 'Glasgow Verbal', 'GCS Quinlan', 'Hospital ICU', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'CT Abd/Pelvis', 'CT Chest', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', 'Destination Determination', and 'Medications'. The bottom of the screen has 'Submit' and 'Reset' buttons, and a status bar at the very bottom indicates 'Local intranet | Protected Mode: Off'.

The “Glasgow Motor” element is the first recorded Glasgow Coma Score for motor at the referring hospital. This value is used to calculate the overall GCS score for the Referring Hospital. Select an option from the drop-down menu.

# Referring Hospital Screen – GCS Qualifier

The screenshot displays the 'Referring Hospital Screen – GCS Qualifier' in the Indiana Patient Registry. The interface is divided into a sidebar and a main content area. The sidebar on the left contains navigation links: 'My Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area features a top navigation bar with tabs: 'Demographics', 'Injury', 'Pre-Hospital', 'Referring', 'ED / Acute Care', 'Initial Assessment', 'Diagnosis', 'Comorbidity', 'Procedures', 'Complications / PI', and 'Outcome'. The 'Referring' tab is currently selected. Below the tabs, there is a section for 'Incident Information' with fields for 'Validity: 69%', 'Status: In Progress', 'Look: Unlocked', 'Import Status: Typed In', 'Trauma Registry #: IT-120109-025', 'Patient: Smith, Jon W', 'Medical Record #: 123456789', 'Entered: 01/09/12 by Katie Gatz', and 'Updated: 01/31/12 by System Administrator'. A 'GCS Qualifier' dropdown menu is highlighted with a red circle, showing options: 'Not Applicable', 'Patient Chemically Sedated', 'Obstruction To The Patient Eye', and 'Patient Intubated'. Below this, there are fields for 'Hospital ICD', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'CT Chest', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', 'Destination Determination', and 'Medications'. A red circle is drawn around the 'GCS Qualifier' dropdown menu. At the bottom of the form, there are 'Submit' and 'Reset' buttons. The footer of the page shows 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

The “GCS Qualifier” element is the documentation of factors potentially affecting the first assessment of GCS at the referring hospital. Select multiple qualifiers (up to three) by holding down the ‘Shift’ key.

# Referring Hospital Screen – Temperature

The screenshot shows the 'Referring Hospital' section of the Indiana Patient Registry. The 'Temperature' field is circled in red. The form includes various input fields for patient information, vital signs, and medical history.

The screenshot displays the 'Referring Hospital' screen in the Indiana Patient Registry. The interface is divided into a sidebar on the left and a main content area. The sidebar includes links for 'My Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area has a top navigation bar with tabs for 'Demographics', 'Injury', 'Pre-Hospital', 'Referring', 'ED / Acute Care', 'Initial Assessment', 'Diagnosis', 'Comorbidity', 'Procedures', 'Complications / PI', and 'Outcome'. The 'Referring' tab is currently selected. Below the tabs, there is a section for 'Incident Information' with fields for 'Validity: 69%', 'Status: In Progress', 'Lock: Unlocked', 'Import Status: Typed In', 'Trauma Registry #: IT-120109-025', 'Patient: Smith, Jon W', 'Medical Record #: 123456789', 'Entered: 01/09/12 by Katie Gatz', and 'Updated: 01/31/12 by System Administrator'. The main section is titled 'Referring Hospital' and contains a table with columns for 'Referring Hospital', 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. Below the table, there are several input fields for patient information, including 'Glasgow Eye', 'Glasgow Verbal', 'Glasgow Motor', 'GCS Qualifier', 'Hospital ICU', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'CT Abd/Pelvis', 'CT Chest', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', 'Destination Determination', 'Temperature', 'Sys. BP', 'BP', 'Pulse Rate', 'Resp. Rate', 'SpO2', and 'Medications'. A red circle highlights the 'Sys. BP' field, which is the first recorded systolic blood pressure at the referring hospital. At the bottom of the screen, there are 'Submit' and 'Reset' buttons, and a status bar indicating 'Local intranet | Protected Mode: Off'.

The “Sys. BP” element is the first recorded systolic blood pressure at the referring hospital. It is used to auto-calculate the Revised Trauma Score for the referring hospital.

# Referring Hospital Screen – Diastolic Blood Pressure

The screenshot shows the Indiana Patient Registry interface. The top navigation bar includes 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. The left sidebar lists various options like 'Image Trend Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is titled 'Referring Hospital' and contains several sections for data entry. The 'Referring Hospital' section is highlighted in red. It includes fields for 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. Below this, there are fields for 'Glasgow Eye', 'Glasgow Verbal', 'Glasgow Motor', 'GCS Qualifier', 'Hospital ICU', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'CT Abd/Pelvis', 'CT Chest', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', 'Destination Determination', and 'Medications'. The 'Dia. BP' field is circled in red. The 'Add Referring Hospital' button is at the bottom of the section. The bottom of the screen shows the 'Submit' and 'Reset' buttons, and the 'Indiana Patient Registry' logo.

The “Pulse Rate” element is the first recorded pulse rate at the referring hospital, expressed as a number per minute.

# Referring Hospital Screen – Respiratory Rate

The screenshot shows the 'Referring Hospital' screen in the Indiana Patient Registry. The interface includes a top navigation bar with 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains links for 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into sections for 'Incident Information', 'Referring Hospital', and 'Patient Care'. The 'Referring Hospital' section contains various fields for patient information, including 'Admit Date', 'Discharge Date', 'Physician Name', 'Glasgow Eye', 'Glasgow Verbal', 'Glasgow Motor', 'GCS Qualifier', 'Hospital ICU', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'CT Abd/Pelvis', 'CT Chest', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', 'Destination Determination', 'Medications', 'Temperature', 'Sys. BP', 'Dia. BP', 'Pulse Rate', 'Resp. Rate', and 'SpO2'. The 'Resp. Rate' field is circled in red. The 'Incident Information' section shows 'Validity: 69%', 'Status: In Progress', 'Lock: Unlocked', 'Import Status: Typed In', 'Trauma Registry #: IT-120109-025', 'Patient: Smith, Jon W', 'Medical Record #: 123456789', 'Entered: 01/09/12 by Katie Gatz', and 'Updated: 01/31/12 by System Administrator'. The 'Referring Hospital' section has a table with columns for 'Referring Hospital', 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. The table is currently empty, and a message states 'No Referring Hospitals Have Been Entered'. The 'Glasgow Eye' field is set to 'Not Applicable'. The 'Glasgow Verbal' field is set to 'Not Applicable' with a note 'Patient's Age is over 2 yrs.'. The 'Glasgow Motor' field is set to 'Not Applicable' with a note 'Patient's Age is over 2 yrs.'. The 'GCS Qualifier' field is set to 'Not Applicable' with a dropdown menu showing options: 'Patient Chemically Sedated', 'Obstruction To The Patient Eye', and 'Patient Intubated'. The 'Hospital ICU' field is set to 'Not Applicable'. The 'Hospital OR' field is set to 'Not Applicable'. The 'CPR Performed' field is set to 'Not Performed'. The 'CT Head' field is set to 'Not Performed'. The 'CT Cervical' field is set to 'Not Performed'. The 'CT Abd/Pelvis' field is set to 'Not Performed'. The 'CT Chest' field is set to 'Not Performed'. The 'Abdominal Ultrasound' field is set to 'Not Performed'. The 'Aortogram' field is set to 'Not Applicable'. The 'Arteriogram' field is set to 'Not Applicable'. The 'Airway Management' field is set to 'Not Performed'. The 'Destination Determination' field is set to 'Not Applicable'. The 'Medications' field has an 'Add' button. The 'Temperature' field has input for '°C' and '°F'. The 'Sys. BP' field has input for 'Dia. BP' and 'Pulse Rate'. The 'Resp. Rate' field is circled in red. The 'SpO2' field has input for 'SpO2'. The 'Add Referring Hospital' button is at the bottom. The 'Submit' and 'Reset' buttons are at the bottom right. The footer shows 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

The “Resp. Rate” element is the first recorded respiratory rate at the referring hospital, expressed as a number per minute. It is used to auto-calculate the Revised Trauma Score for the referring hospital.

# Referring Hospital Screen – Respiratory Assistance

The screenshot shows the 'Referring Hospital' screen in the Indiana Patient Registry. The interface includes a left sidebar with navigation options like 'Image Trend Facility', 'Patient Discovery', and 'Incident History'. The main content area is divided into tabs for 'Demographics', 'Injury', 'Pre-Hospital', 'Referring', 'ED / Acute Care', 'Initial Assessment', 'Diagnosis', 'Comorbidity', 'Procedures', 'Complications', 'PI', and 'Outcome'. The 'Referring' tab is active, showing a table for 'Referring Hospital' with columns for 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. Below the table, there are various input fields for patient information, including 'Glasgow Eye', 'Glasgow Verbal', 'Glasgow Motor', 'GCS Qualifier', 'Hospital ICU', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'CT Abdominal', 'CT Pelvis', 'CT Chest', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', 'Destination Determination', and 'Medications'. The 'Resp. Assistance' dropdown menu is highlighted with a red circle, indicating it is the focus of the screen.

If a Respiratory Rate value is entered in the “Resp. Rate” element, a new data element will appear on the form that will allow the user to select the determination of respiratory assistance. The “Resp. Assistance” element is a determination of the mechanical and/or external support of respiration. Select an option from the drop-down menu.

# Referring Hospital Screen – Oxygen Saturation

The screenshot shows the 'Referring Hospital' section of the Indiana Patient Registry. The 'SpO2' field is circled in red. The form includes various input fields for patient information, vital signs, and medical history.

# Referring Hospital Screen – CT Abdominal / Pelvis

The screenshot shows the 'Referring Hospital' screen in the Indiana Patient Registry. The interface includes a top navigation bar with 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains links for 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into several sections. The 'Incident Information' section at the top displays details like 'Validity: 69%', 'Status: In Progress', and 'Patient: Smith, Jon W'. Below this, the 'Referring Hospital' section contains a table with columns for 'Referring Hospital', 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. A dropdown menu for 'Referring Hospital' is currently open, showing options like 'Glasgow Eye', 'Glasgow Verbal', 'Glasgow Motor', and 'GCS Qualifier'. The 'CT Abd/Pelvis' option is highlighted with a red circle. Other options include 'Patient Chemically Sedated', 'Obstruction To The Patient Eye', and 'Patient Intubated'. Below the dropdown, there are several other dropdown menus for 'Hospital ICU', 'Hospital OR', 'CPR Performed', 'CT Head', 'CT Cervical', 'Abdominal Ultrasound', 'Aortogram', 'Arteriogram', 'Airway Management', and 'Destination Determination'. A red circle highlights the 'CT Abd/Pelvis' dropdown menu. At the bottom, there are 'Submit' and 'Reset' buttons. The footer of the screen shows 'Indiana Patient Registry' and 'Local intranet | Protected Mode: Off'.

The “Add Medications” element indicates which, if any, medications were administered to the patient while under the care of the referring hospital. When you click on the “Add Medications” button, it pulls up a list of medications to choose from. You can select multiple boxes that apply to the patient. When you are done selecting medications, click the “Save” button to return to the main Referring Hospital Screen.

# Referring Hospital Screen – Add Referring Hospital

The screenshot shows the 'Referring Hospital' screen in the Indiana Patient Registry. The interface includes a top navigation bar with 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains links for 'Image Trend Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into sections for 'Incident Information', 'Trauma Registry #', 'Patient', 'Medical Record #', and 'NTR Inclusion'. Below these, there is a table for 'Referring Hospital' with columns for 'Admit Date', 'Time', 'Discharge Date', 'Time', 'Length of Stay', and 'Physician Name'. The table currently shows 'No Referring Hospitals Have Been Entered'. A red circle highlights the 'Add Referring Hospital' button at the bottom of the form. The bottom of the screen shows a status bar with 'Done', 'Local intranet | Protected Mode: Off', and a zoom level of 100%.

Once you have entered all available information, in order to save the changes you made, click the “Add Referring Hospital” button.

You can delete Referring Hospital Information by clicking on the red X Icon on the right-hand side of the screen.

# Referring Hospital Screen – Submit

The screenshot shows the 'Referring Hospital' screen in the Indiana Patient Registry. The interface includes a top navigation bar with 'My Facility', 'Data Exchange', 'Reports', and 'Report Writer'. A search bar is located on the right. The left sidebar contains links for 'Image Trend Facility', 'Patient Discovery', 'Incident History', 'Facility Setup', 'Registry Users', 'Patient Care Staff', and 'Inbox (0 Unread)'. The main content area is divided into several sections: 'Incident Information' (Validity: 69%, Status: In Progress, Look: Unlocked, Import Status: Typed In), 'Trauma Registry' (Patient: Smith, Jon W, Medical Record #: 123456789, NTR Inclusion: No), and 'Validity Information'. Below these is a table for 'Referring Hospital' with columns for Admit Date, Time, Discharge Date, Time, Length of Stay, and Physician Name. The table currently shows 'No Referring Hospitals Have Been Entered'. Below the table are various input fields for patient information, including Glasgow Eye, Glasgow Verbal, Glasgow Motor, GCS Qualifier, Hospital ICU, Hospital OR, CPR Performed, CT Head, CT Cervical, CT Abd/Pelvis, CT Chest, Abdominal Ultrasound, Aortogram, Arteriogram, Airway Management, Destination Determination, Temperature, Sys. BP, Dia. BP, Pulse Rate, Resp. Rate, SpO2, and Medications. At the bottom, there are 'Add Referring Hospital', 'Submit', and 'Reset' buttons. The 'Submit' button is circled in red.
